Client Spotlight - The Sidders Family

Trent and Jessica Sidders had a problem that plagues most couples with a young family....they were beginning to out grow their home! The Sidders had to weigh their options: (1) they could move into a larger home in a different neighborhood or (2) they could make an investment on their existing home. After many late night discussions, they decided to stay in the neighborhood they knew and loved.

Once that decision was made, Trent and Jessica wasted little time in calling Steve Fulton at Fulton Construction to help plan an addition to their home. Several meetings later they finalized a Plan and broke ground. Project Manager, Ryan Leu coordinated the construction and deconstruction of their home. One concern was the actual placement of the addition. With yard space constrictions tight, we needed to give them maximum living space without going into the neighbors yard!

Big Game Hunting

Steve Fulton tried his hand at wild boar hunting in Texas this fall. he was able to bring home the bacon AND a new deer to stuff! Nice rack Steve!

Employee News

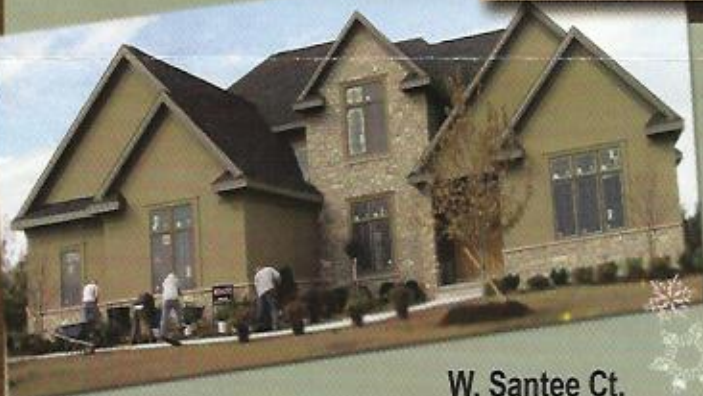

Newest Employee - Lenora Gross

Lenora Gross began as a temp employee in mid June. Happily things progressed well and Steve offered her a permanent position. As the new Office Manager, she will handle the project accounting and help with marketing strategies.. Born and raised in Kansas (a KSU Wildcat fan), she began her love of numbers at the age of 13 working in her father's remodeling business. Learning accounting from her mother and woodworking skills from her father, Lenora learned early the value of good honest work. After graduation, she has held many roles in the business world including Accounting, HR, Business Management and Marketing/PR. Her husband David's management positions have taken them to 3 different states and several cities finally landing them back in his hometown of Lincoln. They have three daughters, Takowa, Janice & Sarah, three granddaughters and one grandson.

Projects in Progress

W. Santee Ct.

Just outside of Lincoln, this roomy Ranch home features high performance insulation and HVAC equipment. The interior finish includes custom cabinets by Dean Usher and outstanding trim and millwork by D&R Custom Trim.

South 93rd St.

This stucco and stone 2-story home was made-to-order for a very special young family. Geothermal and Energy Star efficient units make for low utility bills. Interior design by Lee Douglas have made this house into a home.

SW 112th St.

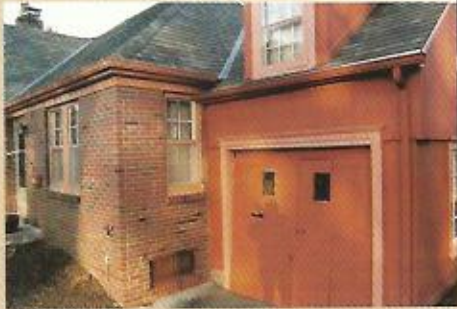

Not a house but a...GARAGE. This ultimate man cave features all the comforts of home but is great for showcasing the 'stuffed' animals properly. With a gorgeous stone exterior, this 'garage' can stand all on its own!

Client Spotlight continued... Another difficult obstacle to overcome for both Fulton Construction and the Sidders family was the fact that they would remain living in their home during this large remodeling project. With a lot of patience from Trent, Jessica, daughters Kaitlin and Elizabeth and the careful planning by Ryan, the project was a huge success! "I couldn't wait to get all of the workers out of my house! But at the same time, I hated to see them leave!" said Jessica. The Sidders are very proud of their house that is now large enough to sustain their growing family. Thank you Trent and Jessica for calling Fulton Construction to be a part of your remodeling needs!

Before

During

After

Mark your calendars for the Nebraska Builders Home & Garden Show Feb. 9th-12th at the Lancaster Event Center!

Steve is conducting another seminar. "Ask the Experts" is a panel discussion featuring Steve (Fulton Construction), Eric Hoke (Eric's Electric), Brad Provancha (Capitol Heating & Air) and Bob (Nohavec Plumbing). So jot down some of those questions you want to ask and head to the Event Center. Learn about the latest trends in building, heating, plumbing and electrical from some of the top experts in town!

Seminar times: Saturday 5:00 p.m. and Sunday 2:30 p.m.

Lancaster Event Center is located at 84th & Havelock Ave. Admission is \$6/per person or \$5 with a non-perishable food item for the Lincoln Food Bank. Children under 12 are FREE.

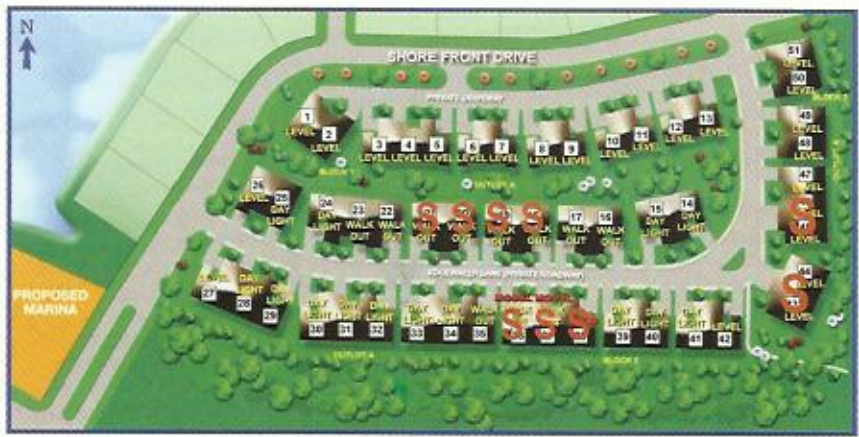

Our best jobs always come from referrals! As a way to say 'Thanks' we will send you a Gift Card to your favorite restaurant OR you can choose our '2WJ' package for every referral that results in a new customer. The 2WJ package is good for 2 hours with our Master Carpenter, Jason, to tackle some of those honey-do items that seem to pile up! Call in or email us your referral, if they become a new Fulton customer we will notify you, then you choose your reward!
